

The List of 1000 Slack Communities

Slack keeps growing like crazy with new ways of using the app besides team communications. We at [Standuply](#) did some research about that and composed a list of 1000 Slack communities.

It's fascinating to see the rise of Slack communities. Here are our findings:

- in 9 months the number of Slack communities grew by 2.5 times;
- the total number of their members is more than 1.000.000 people;
- Bootstrap chat grew from 3500 to 15000 members in less than a year.
